ENFORCEMENT ACTIVITY REPORT

2000

SASKATCHEWAN
CONSERVATION
OFFICER

ENFORCEMENT AND COMPLIANCE BRANCH

Saskatchewan Environment and Resource Management

103-04277/

PREFACE

The 2000 Enforcement Report itemizes resource and environmental law enforcement activity undertaken by Saskatchewan Environment and Resource Management. In addition, non-mandate enforcement activity undertaken by conservation officers is included. The report is a summary of enforcement activity reported to Enforcement and Compliance Branch as of December 31, 2000.

This report is intended to summarize prosecutions for offences committed during the calendar year of 2000. Statistical summaries are provided here as reported to the end of each calendar year. This allows a comparative analysis of yearly data.

Included in this report are activity summaries of specialized units within Enforcement and Compliance Branch, including Provincial Enforcement Centre, K-9, and Training Units. The report also includes significant enforcement occurrences, alternative measures use, arson fire statistics, vehicle pursuits, assaults, use of force, controlled wildlife models and road side inspections.

Information contained in this report is intended for internal Department analysis, planning and co-ordinating of law enforcement activities, policies and procedures. For interpretation or further analysis of prosecutions detailed in this report contact the Director, Enforcement and Compliance Branch, Saskatchewan Environment and Resource Management, Prince Albert.

TABLE OF CONTENTS

ENFORCEMENT ACTIVITY

- **All Programs**
  - Total Summary - All Prosecutions and Warnings
  - Regional Summary - All Prosecutions
  - Status of All Prosecutions

- **Environmental Protection**
  - Regional Summary -Environmental Protection Prosecutions
  - Status of Environmental Protection Prosecutions
  - Environmental Prosecutions by Offence
  - Environment Case Study
  - Environmental Tip Calls - Graph
  - Spills Reported on the SPILL LINE - Graph

- **Wildlife**
  - Regional Summary - Wildlife Prosecutions
  - Status of Wildlife Prosecutions
  - Wildlife Prosecutions by Offence
  - Wildlife Charges vs. - Convictions Graph

- **Litter Control**
  - Regional Summary - Litter Control Prosecutions
  - Status of Litter Control Prosecutions
  - Litter Prosecutions by Offence
  - Litter Charges vs. Convictions - Graph

- **Guides and Outfitters**
  - Regional Summary - Guides and Outfitters Prosecutions
  - Status of Guides and Outfitters Prosecutions
  - Guide and Outfitters Prosecutions by Offence
  - Guide and Outfitters Charges vs. Convictions - Graph

- **Migratory Birds**
  - Regional Summary - Migratory Birds Convention Act Prosecutions
  - Status of Migratory Birds Convention Act Prosecutions
  - Migratory Bird Prosecutions by Offence
  - Migratory Birds Charges vs. Convictions - Graph

- **Parks**
  - Regional Summary - Parks Prosecutions
  - Status of Parks Prosecutions
  - Parks Prosecutions by Offence
  - Parks Charges vs. Convictions - Graph

- **Fisheries**
  - Regional Summary - Fisheries Prosecutions
  - Status of Fisheries Prosecutions
  - Fisheries Prosecutions by Offence
  - Fisheries Charges vs Convictions - Graph

- **Prairie and Forest Fire**
  - Regional Summary - Prairie and Forest Fire Prosecutions
  - Status of Lands and Forests Prosecutions
  - Prairie and Forest Fire by Offence
  - Prairie and Forest Fire Charges vs Convictions - Graph

- **Criminal Code**
  - Regional Summary - Criminal Code Prosecutions
  - Status of Criminal Code Prosecutions
  - Criminal Code by Offence
  - Criminal Code Charges vs. Convictions - Graph

- **Summary Offence Procedures**
  - Regional Summary - Summary Offence Prosecutions
  - Status of Summary Offence Prosecutions
  - Summary Offence Procedures by Offence
  - Summary Offence Procedures Charges vs. Convictions - Graph

- **Traffic and Vehicles**
  - Regional Summary - Traffic and Vehicles Prosecutions
  - Status of Traffic and Vehicles Prosecutions
  - Traffic and Vehicles by Offence
  - Traffic and Vehicles Charges vs. Convictions - Graph

- **Alcohol**
  - Regional Summary - Alcohol Prosecutions
  - Status of Alcohol Prosecutions
  - Alcohol Charges vs. Convictions - Graph

- **Forest Resources Management Act**
  - Violation Type by Region
  - Forest Fine Revenue Collected by Region
  - Forestry Prosecutions by Offence

- **Arson Fires**
  - Case Study
  - Arson Fires vs. Enforcement Effort - Graph

- **Alternative Measures**
  - Total Number of Charges Referred to Alternative Measures Field Area vs.Year - Graph
  - Total Number of Charges Referred to Alternative Measures - Graph

ENFORCEMENT AND COMPLIANCE BRANCH

- **Provincial Enforcement Center**
  - Patrol Log-ins/off Combined Conservation Officer and Highways - Graph
  - Inquiries by Officer - Graph
- **Training Unit**
  - Enforcement Training - Officer Days
- **K-9 Unit**
  - K-9 Unit Activities

ENFORCEMENT PROGRAMS

- **Turn In Poachers Program**
  - All Turn In Poacher Calls
  - Charges & Warnings From All Calls
  - Charges & Warnings by Region
  - Turn In Poacher Calls by Year- Graph
  - Turn In Poacher Calls by Region - Graph
  - Turn In Poacher Calls - Fisheries - Graph
  - Turn In Poacher Calls - Wildlife - Graph
- **Controlled Wildlife Models**
  - Controlled Wildlife Model (CWM) Use
- **Road Side Inspections**
  - Road Side Inspections

ENFORCEMENT INCIDENTS

- **Vehicle Pursuits**
  - Number of Vehicle Pursuits
  - Officer Activity Prior to Vehicle Pursuit
  - Time of Day of Pursuit
  - Outcome of Pursuit
  - Charges Laid After a Pursuit
  - Length of Pursuit
  - Pursuits Abandoned
  - Damage or Injuries Sustained
  - Intoxicants Involved in Pursuits
- **Use of Force**
  - Number of Incidents Reported
  - Number of Officers Injured
  - Number of Subjects Injured
  - Activity of Officer at Time of Incident
  - Time of Day of Confrontation
  - Assignment Type

- Level of Resistance Encountered
- Highest Level of Resistence Encountered
- Subject Profile
- Highest Level of Control Effected
- Control Technique Applied

- **Assaults on Conservation Officers**
  - Number of Officers Assaulted
  - Number of Officers Injured
  - Activity of Officer at Time of Assault
  - Assailant Profile
  - Type of Weapon Used in Assault
  - Officer Profile
  - Time of Day During Assault

ENVIRONMENT

Saskatchewan Environment and Resource Management (SERM) took an aggressive enforcement strategy to sign up the remainder (236) non-compliant dealerships who refused to sign up to a voluntary program offered by Saskatchewan Scrap Tire (SSTC), initiated in 1996. The Director Environment Protection Branch sent letters to the remaining non-compliant dealers. The results of the letter campaign reduced the number to 109. The second step to compliance had field conservation officers visit the remainder and issue Notice of Violation under the Saskatchewan Scrap Tire Regulations. This assisted in reducing the non-compliant numbers to 23. A further follow-up by telephone by Enforcement and Compliance Branch Staff has reduced this to 5 non-compliant dealers. The last component to the Enforcement Strategy now, is to prepare charges and follow through with prosecution on the remainder.

City of Swift Current Investigation

Circumstances:

- March 26, 1999 the complainant witnessed raw sewage going through a drainage in his yard, into a reservoir along side his house and then into the Swift Current creek. Water samples were taken by the complainant and taken to the Provincial Lab. The samples came back very high in fecal coliform counts. There were several dead white suckers found in the reservoir.
- April 9, 1999 the complainant met with the manager of public works for the City of Swift Current and learned that the city release sewage effluent from the decanting cell of the snowfluent plant.
- April 13, 1999 Conservation Officers questioned city employees as to what happened that caused the release of sewage. The manager of Public Works was questioned and he had ordered employees to open a valve on the primary sewage lagoon cell D and flood irrigate a freshly seeded hay flat in the snowfluent decanting cell. When this was done the sewage filled the decanting cell and then escaped out through an open control structure at the far end of the decanting cell and then eventually through the complainants yard and into the Swift Current creek. It was estimated that between five to ten million gallons of sewage had escaped. The head engineer for the city was questioned with much the same statement but that it was not intentional.
- The Swift Current Health District was contacted and they issued a boiled water order for downstream users and began testing on down stream users wells of which one test came back positive with coliform counts but was unable to confirm its origin. Sask Ag and Food livestock extension agrologist was contacted if they had any concerns for livestock watering.
- July 14, 1999 a court brief was prepared and sent to the Department of Justice, their recommendation to prosecute came back on July 21, 1999.
- October 29, 1999 the City Solicitor was served informations. They went over the case and suggested that this go to mediation. Over three mediation sessions, over several months, a formal mediated agreement was made which was presented to the Mayor and Grassland Ecoregion Director to sign. This document was presented to Judge Shanner on December 8, 2000 in Provincial Court at Swift Current.

December 8, 2000 in Provincial Court at Swift Current.

- In Judge Shanner's ruling, he as a whole did accept the mediated agreement and assessed a five thousand dollar fine instead of the proposed one dollar fine.

Mediated Agreement Consisted of the Following

• Affected landowners were paid	$ 7100.00
• Alternate route to discharge snowfluent water	$81,840.00
• Establish and maintain a Stream Stewardship Committee which is funded by the city at $5000.00 x five years	$25,000.00
• Permanent closure of Cell D gates	$ 500.00
• Mediator costs	$ 1572.90
• Guilty plea to Section 17 EMPA discharge without permit	$ 5000.00
• Staying of four counts Section 4(a) Spill Control Regs	
• Staying of one Federal Fisheries Act Section 36(3) - deposit deleterious substance in a waterway frequented by fish.	

Total of mediated agreement and fines totaling $121,012.90

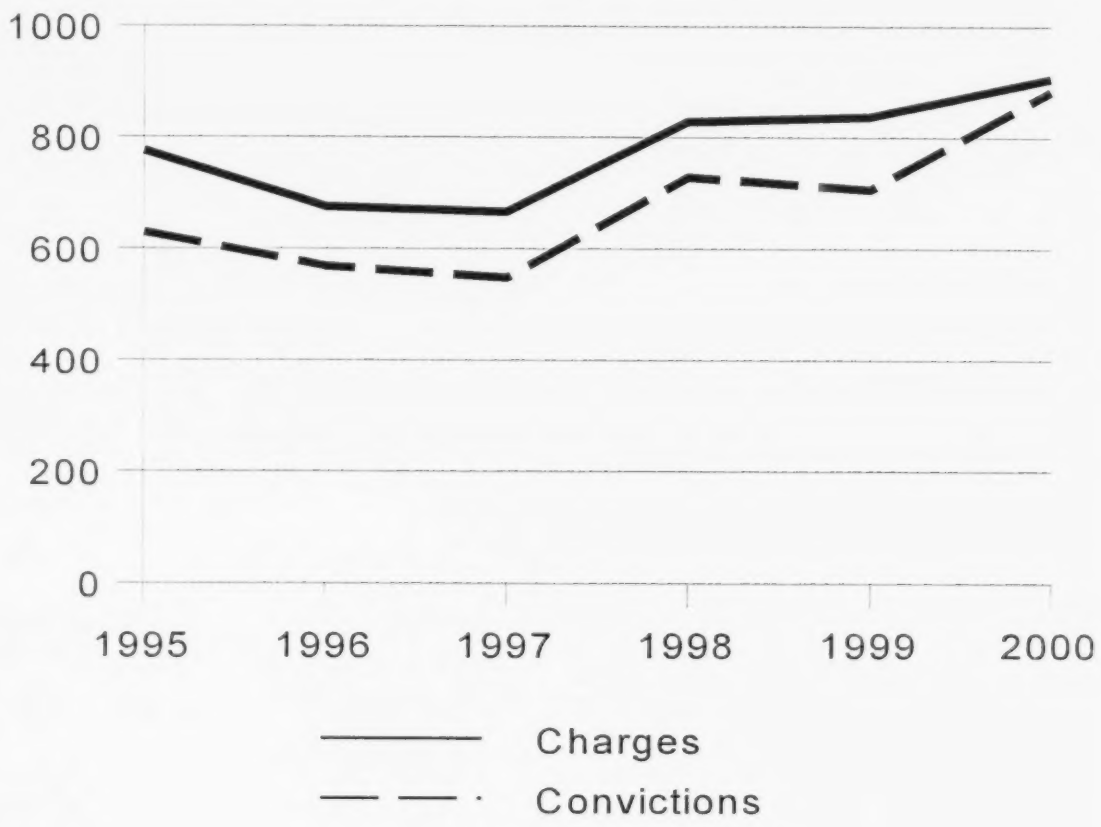
ALCOHOL CHARGES VS. CONVICTIONS



FOREST RESOURCES MANAGEMENT ACT

On April 1, 1999, ***The Forest Resources Management Act*** and accompanying regulations came into effect. The new Act and regulations meant many changes and new requirements for the forest industry. It also made available new, more effective enforcement tools for the SERM staff — Conservation Officers, Forestry Officers and Forest Protection Officers.

Since the Act and regulations came into effect in April 1999, the statistics for the **calender year** of 1999 may not compare well with forestry operations which are based on the SERM fiscal year (and traditional spring break-up time). A large portion of forest operations takes place in the late fall/winter months. The resulting enforcement measures for the currant fiscal year of operation carry over into the statistics for the next calendar year. A comparison of this year's and next year's enforcement statistics would show a truer picture of enforcement activities by SERM staff.

- ***Self Inspection***
  Some licensees were allowed this method of compliance on a trial basis. Random checks by SERM staff, plus independent audits now required under legislation, will be used to verify results. This process is evolving.

- ***Warnings***
  These were issued on Notice of Violation (NOV) forms or noted on a Report on Forest Operations form (RFO) by an officer.

- ***Administrative Penalties***
  The Forest Resources Management Act allows officer's to issue administrative penalties up to the amount of $10,000.00 to address incidences of non-compliance for specific violations of the Act. Penalties ranged from $100 to $10,000.

- ***Stop Work Orders***
  Stop work orders are issued by officers to stop unauthorized harvesting or to stop activities that have damaged or are likely to damage Crown resource land or forest products on Crown land. These were issued on the NOV or the RFO forms by an officer.

FOREST FINE REVENUE COLLECTED BY REGION - 2000

This money collected is a result of Forestry and Conservation Officer investigations. It does not include money pending or as a result of a SERM audit and individuals paying debts owing to SERM from invoices issued by the Prince Albert Service Bureau that did not require follow-up by an officer.
The 'Reconciliation of Volumes Harvested' is money collected from dues and fees owing on illegally harvested forest products or from volumes that were adjusted as a result of an investigation without a prosecution initiated.

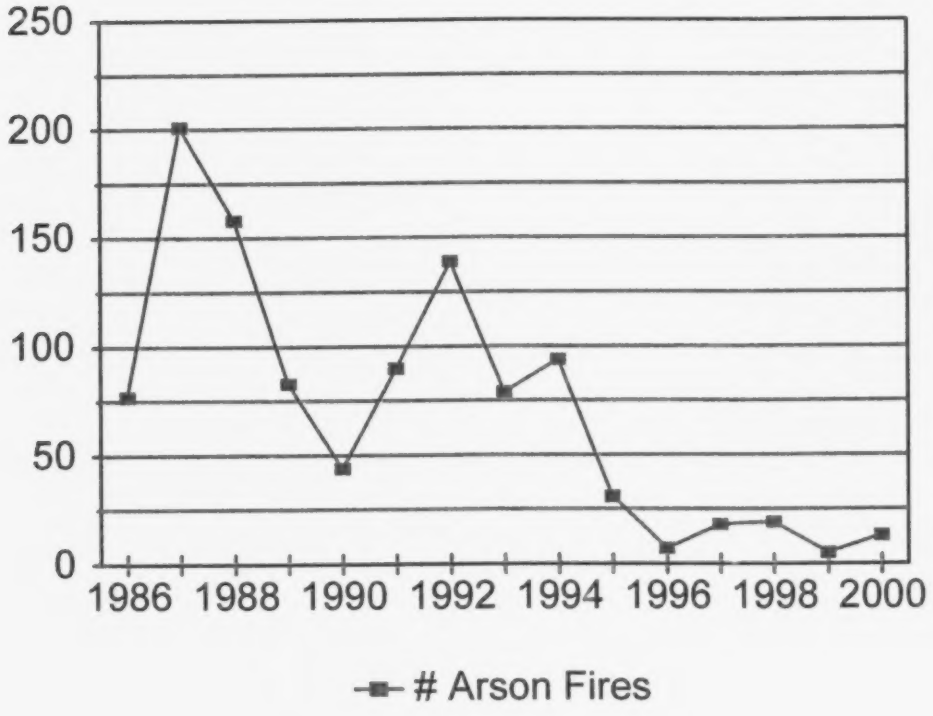
ARSON FIRE UPDATE
ENFORCEMENT ACTIVITY REPORT 2000

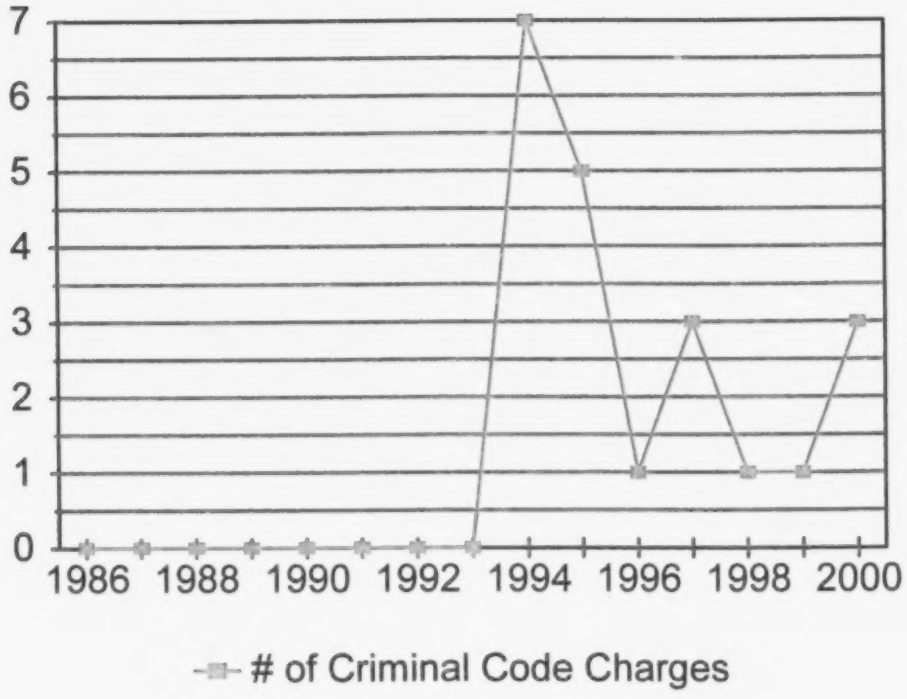
From 1984 to 1994 Saskatchewan averaged 100 arson wildfires per year, with most of them being in northwest portion of the province. Fires are destructive and also costly to extinguish. The average wildfire now costs approximately $63,000 to suppress in Saskatchewan. As well, lives of firefighters, air support staff, and local citizens are endangered when there are wildfires. With the forest industry contributing valuable input to the economy of this province, there is an ever-present concern for the threat of arson fires to the merchantable timber stocks throughout northern Saskatchewan.

It is difficult, but not impossible to apprehend an arsonist. The fires are most often set in remote areas, with a lack of witnesses and lack of physical evidence. Quite often if there was evidence left at the scene, it is destroyed by the fire suppression activities. Conservation Officers are mandated with the investigation of all man-caused fires that SERM actions. Conservation Officers take Wildfire & Arson Investigation training to enhance their skill as fire investigators. As well, fire crews and crew bosses are trained in "protecting the origin". Previous to 1994, there were only about five arson wildfire charges laid in Saskatchewan in the previous 25 years. That changed in 1994 when nine arson charges were laid in northern Saskatchewan, and Conservation Officers have had successful arson investigations every year since then. Since 1994 we have seen the arson fire numbers reduced significantly.

Conservation Officers also work closely with the fire stream staff in delivering a strong public education program on reducing arson fires in specific northern communities where arson fires are a problem. This has proved to be very effective--getting the local people "onside" is important. Also, our Provincial Canine Unit has been an integral part of the enforcement effort in reducing the arson fire numbers in this province, by patrols in high incident areas and public education presentations.

Arson Fires/Enforcement Effort





* **1994 - 1996 there were also numerous arson charges where officers proceeded with alternative measures. These are not represented on this chart .**

ALTERNATIVE MEASURES

Alternative Measures are intended to provide an alternative to traditional prosecution and/or court processes for offenders facing charges laid by conservation officers.

It is the duty of the Attorney General's agent (Crown Prosecutor) to determine the appropriateness of alternative measures. Giving consideration to an offender's age, character, history and rehabilitative prospects, a conservation officer may recommend that it would be appropriate to use measures alternative to traditional prosecution.

The alternative measures program is not intended to be available for every offender and every offence. Rather, it is an acknowledgement that in some cases, because of the nature and circumstances of the offence and the offender, the public interest would be better served by a resolution outside of the traditional criminal process. The objective of alternative measures programs is to have the offender accept responsibility for the offence without going through the formal court process. It is essential, therefore, that the offender takes responsibility for his actions.

The program is generally aimed at offenders without substantial records of resource or environmental offences.

Total Number of Charges Referred to Alternative Measures
Field Area vs. Year

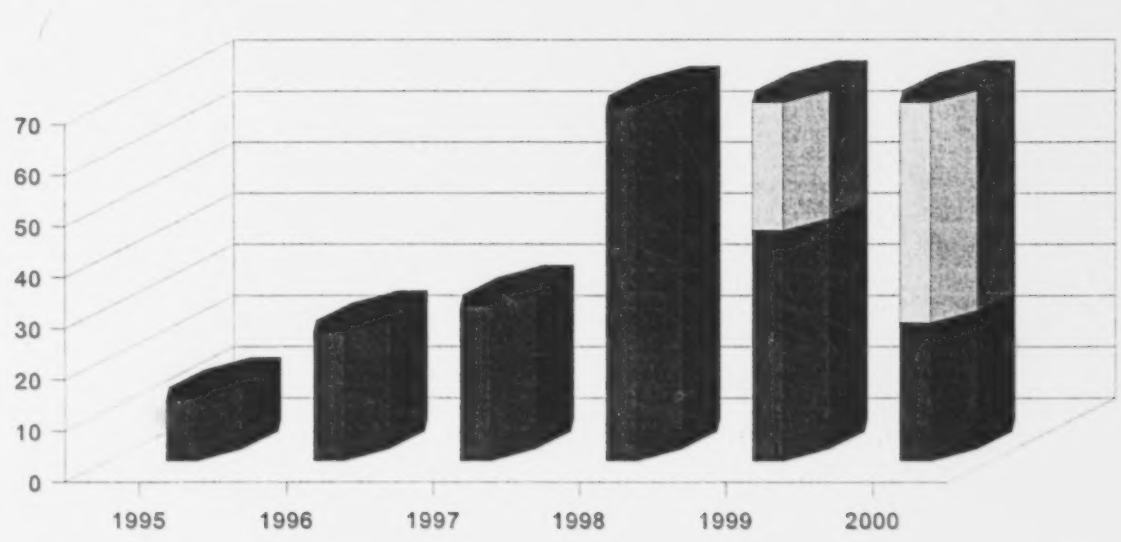
★ **1999 and 2000 numbers are incomplete due to numerous alternative measure cases pending.**

Total Number of Charges Referred to Alternative Measures



★ **The lighter shaded area in the above graph represents projected numbers for 1999 and 2000 as there are numerous alternative measures cases incomplete.**

PROVINCIAL ENFORCEMENT CENTER

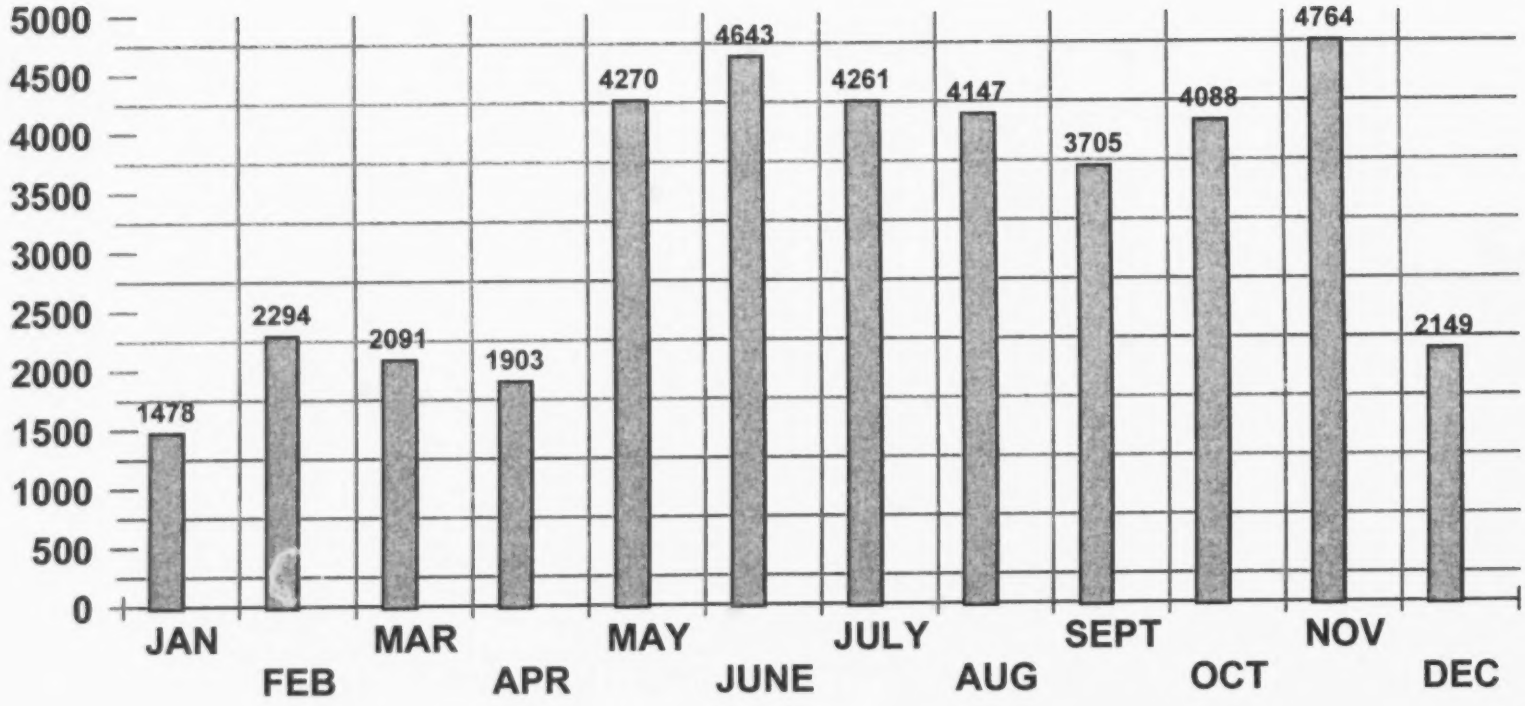
The Provincial Enforcement Center has operated since 1988 to provide log on/log off services to Saskatchewan Conservation Officers. The center also maintains the Resource Intelligence Program to track illegal natural resource and environmental activity and has access to the Canadian Police Intelligence Center (CPIC) as well as vehicle licence and driver information maintained by Saskatchewan Government Insurance.

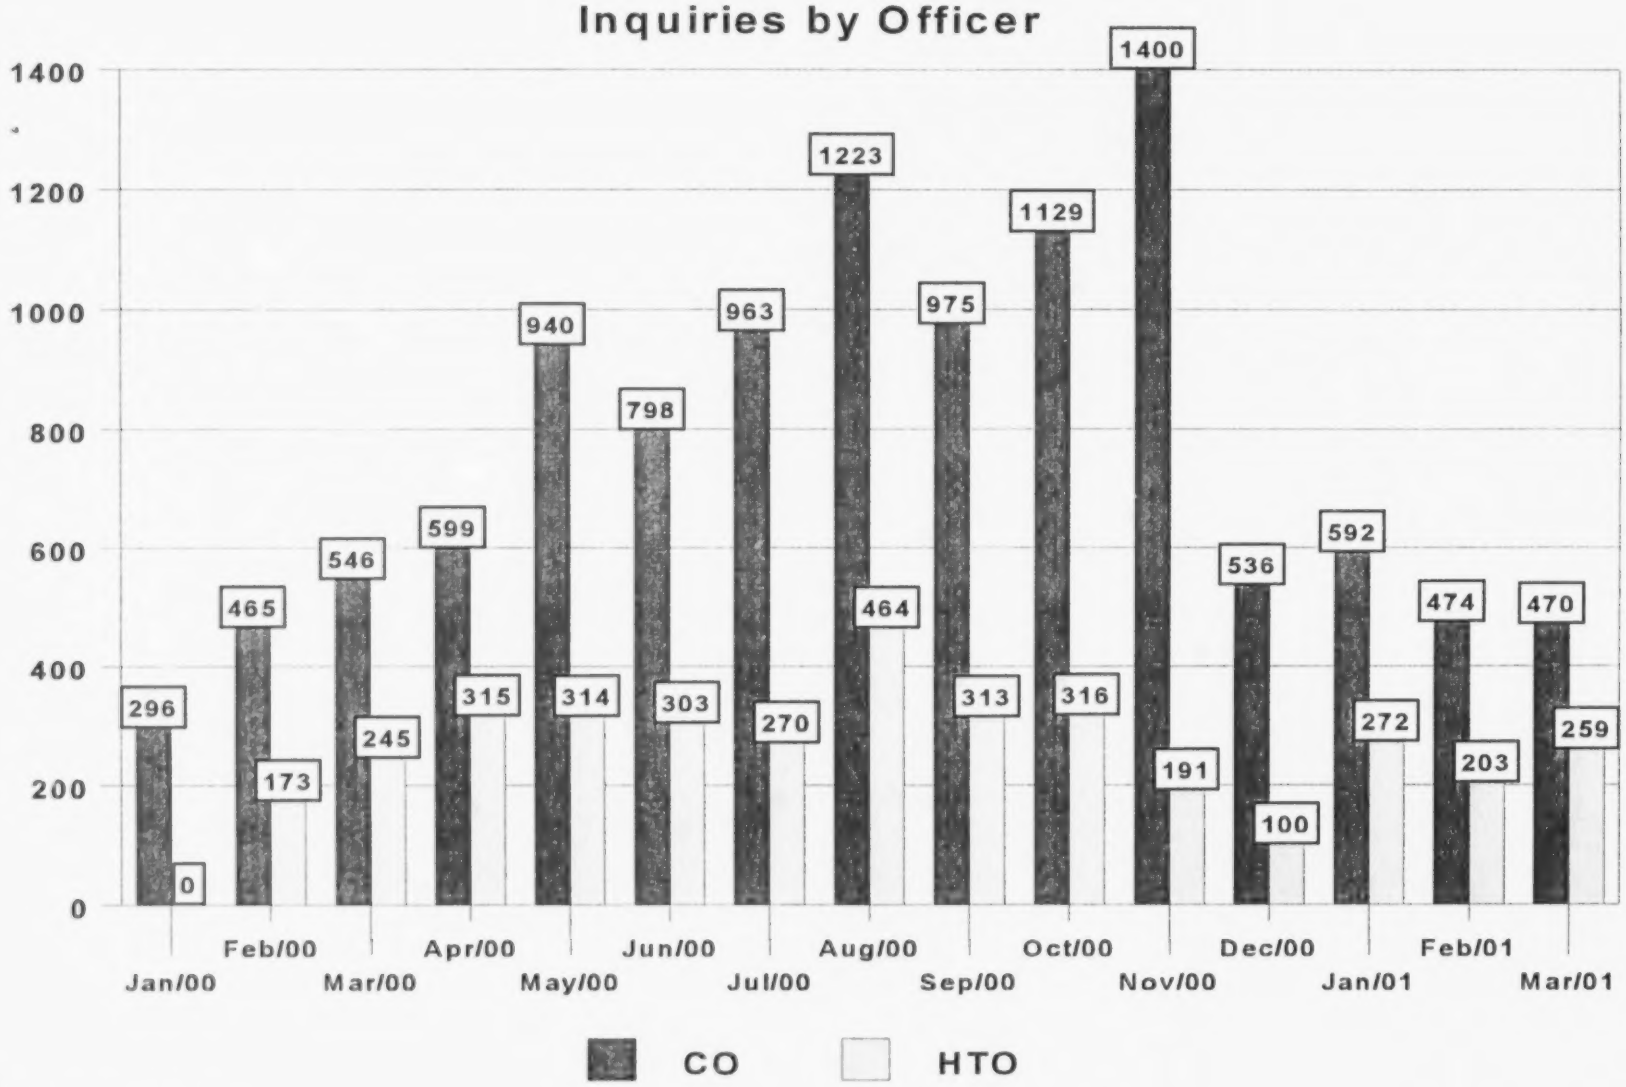
In February 2000, the Provincial Enforcement Center began providing services to officers of the Saskatchewan Highway Transport Patrol. Services provided are log on/log off, vehicle and person inquiries and warrant maintenance. Similar service is also provided to officers of the Revenue Enforcement Unit of Saskatchewan Finance.

In keeping with the established objectives of the Center, the priority remains officer safety, followed by increased efficiency for the law enforcement role.

Patrols Log-ins/offs Combined

Conservation Officer and Highways





CO = Conservation Officer
HTO = Highway Transport Officer

- Inquiries include CPIC checks (criminal record , violence, prohibited driver, warrants), SGI (driver vehicle license, registration information), and Resource Intelligence for Conservation Officers.

INCIDENT REPORTS

1. Two officers were responding to a unlawful hunting complaint. Officers passed the subject vehicle traveling at high speeds approximately 1 mile north of the location. Officers pursued vehicle at speeds in excess of 150 km/hr. Suspect vehicle stopped as officers closed distance to 300 m after a 16 km pursuit. Subjects were cooperative when apprehended.

2. Two officers encountered an intoxicated belligerent male. One officer began the eviction process in his vehicle when suspect went to drivers side of the vehicle with threatening attitude and movements. Suspect was instructed to stay back and keep his hands out of the vehicle. When he did not comply the officer utilized the mandibular angle pressure point until compliance was achieved. Shortly after the suspect became violent again and the officer placed the suspect under arrest. Further fighting ensued and the officer effected a tactical takedown. Suspect was restrained on ground until a vehicle with silent patrolman was available. He was transported to the RCMP vehicle trying to break off handcuffs by pulling.

3. Two officers were conducting a park enforcement patrol when they stopped a vehicle that had crossed the center line twice. Suspect were run through the system which revealed an outstanding warrant on the passenger in the vehicle. The suspect returned to their campsite. Warrant was confirmed by the RCMP and officers were requested to arrest and transport the subject to their office. Subject was found in tent and arrested and turned over to the RCMP.

4. Three officers responded to a complaint of minors consuming alcohol at a campground. A vehicle with four suspect was stopped outside of the campground and alcohol was found in their possession. The suspect were uncooperative and two of them were intoxicated. The subject in possession of the alcohol would not follow officers direction or show proper identification. Officers used repeated verbal direction but the subject refused to comply at which time he was advised he was under arrest for possession of alcohol and for being intoxicated. In a public place one officer placed the subject in the patrol vehicle in a transport wristlock. Another officer controlled the second intoxicated individual while he tried to run at the arresting officer.

5. Officers responded to complaint at a campground. Suspect removed several lawn chairs from site across the road and wouldn't return them. Suspect also suspected of damaging park buildings. Subject was arrested after evidence of damaging building was found in his possession. He was arrested and handcuffed without further incident.

6. Two officers located a subject that was wanted for questioning by other park enforcement officers for park vandalism. When approaching the subject he appeared to be intoxicated and was being uncooperative refusing to provide his name after being asked several times. The officer advised the subject that he was under arrest and which time the subject resisted by pulling his arms away and preparing to run. Restraint was applied, subject handcuffed and taken to the local RCMP detachment.

7. A subject who had been dealt with on a previous occasion was observed driving showing obvious signs of intoxication. The officer read the accused breath demand for road side tester. Accused stated he understood the demand. The subject failed the breath demand and was arrested, read his rights at which time the accused asked to contact a lawyer. Subject was turned over to RCMP for processing.

8. Two officers were responding to a complaint of thefts and fighting in a provincial park campground. The subject and another male were observed walking with open beer and a ghetto blaster. Upon seeing the officers the subject tried to conceal his beer and the stereo. He was accompanied back to the patrol vehicle and placed in the rear seat at which time he was verbally abusive and uncooperative. He was placed under arrest and transported to the RCMP and released by them. Stolen items were returned to the complainant and mediation was used to deal with the assault complaints. The officer broke up one fight and as a result evicted twelve persons from the park.

9. Officers responded to a loud party in a campground. Several persons were evicted from the park. Four persons failed to leave the campground and were arrested and transported to cells. Two suspects were verbally abusive and were charged with creating a disturbance. All four suspects were evicted from the park for 48 hours.

10. A subject was evicted from a park at 0530 hours and observed back in the campground at 2245 hours and arrested again at which time he was transported to RCMP cells for the second time that day.

11. While on park patrol a suspect was being charged for possessing alcohol in a park and became very abusive verbally. He was placed under arrest for being intoxicated and causing a disturbance. He resisted arrest and the officer drew his pepper spray. Subject was transported to RCMP cells. He had previously been evicted from the park the night before.

12. Two officers were working park enforcement when they observed a very intoxicated and loud subject standing on top of a vehicle yelling obscenities at the officers. He appeared to have been in a fight recently. The officer convinced the subject that he required medical attention at which time he agreed to be taken to the hospital. Once inside the patrol vehicle he was placed under arrest and taken to RCMP cells. No medical attention was required.

13. Two officers responded to a complaint of a random attack at a trailer in the park by two males. Through interviews the officers determined that two suspects were responsible for the attack on two males and a female. Stolen property was returned to the owner. A male was also arrested at this incident for re-entering the park while evicted. All three were transported to RCMP cells. This was the second arrest for one of the suspects during the weekend.

14. While on a routine patrol an officer observed an intoxicated suspect drive through a stop sign. Suspect was transported to RCMP for breathalizer test which he failed. Suspect was cooperative.

15. Two park enforcement officers attended a campsite in the park to issue a verbal warning for loud noise. The suspect threw a beer bottle under the table. While attempting to determine suspects age and identity he became obstructive and provided false information. The officers placed him under arrest and a search found a bag of cannabis. The suspect was transported to the RCMP to deal with the narcotics charge.

16. While on routine park patrol two officers initiated a vehicle search and found open beer and a bag of cannabis. The accused admitted to possessing the drugs and was placed under arrest. As a result he was transported to the RCMP and charges were laid.

17. A roadside inspection organized by the RCMP highway patrol and various other agencies were invited to participate. A lone officer was there to check for any fish and wildlife infractions in vehicles. The officer noticed an RCMP member handcuffing a suspect from a vehicle. The officer provided assistance to him by handcuffing the other suspect in the vehicle. The search revealed that the vehicle was stolen. Both suspects were taken into custody by the RCMP.

18. While on routine patrol in a community the lone officer observed a suspect vehicle proceeding through a yield sign at approximately 70 km/hour almost colliding with the officers patrol vehicle. Suspect then drove through a stop sign without slowing down. The officer activated emergency lights and suspect continued on for a couple of blocks before coming to a stop. The suspect then stuck his head out of the drivers window and sped off. Officer placed call to RCMP for back up. Suspect vehicle occupied by five occupants was pulled over and suspect was acting very irrational. Officer handcuffed suspect before the RCMP arrived at the scene and they helped secure the suspect. Other occupants were sent home.

19. Officers were patrolling when they noticed a vehicle parked in a harvested field. After running the plate they were informed there was an outstanding warrant for the suspects arrest for theft, fraud and two counts of failing to appear. Suspect was located, warrant confirmed, suspect identified and arrested. Suspect was taken to local RCMP detachment where he was processed and released on a recognizance.

20. After returning to the SERM office after a night shift officers observed a motor vehicle accident right in front of the office. Both drivers were arguing at which time an officer intervened and directed both drivers to return to the front of their respective vehicles until the RCMP arrived. The driver of one of the vehicles left the scene of the accident on foot running. With the help of other officers we attended one of the local pubs where the suspect was arrested and handcuffed. The passenger of the vehicle was intoxicated and also handcuffed at the scene. All officers involved provided notes of the incident to the RCMP and the suspects were arrested.

21. A lone officer received a call from a local citizen that the maintenance compound was being broken into. When the officer arrived there were five suspects on the site and the local citizen's vehicle was blocking the gate to prevent their escape. The officer took one suspect to the patrol vehicle and provided his rights to counsel bu the suspect was unwilling to provide information. The suspect was told to remain in vehicle while the other suspects were interviewed and arrested for break and enter and theft. While talking with the citizen at the scene the officer noticed the suspect in the patrol vehicle exit the vehicle. The suspect was confronted and handcuffed.

22. Two officers were conducting a park patrol and noticed the suspect who was part of a group evicted from the campground that evening. The site was to be vacated by 8am that same day. At 2120 that same day officers were going to check on a group of youths that had converged around a motor home in the parking lot. One of the officers noticed the individual in the motor home and opened the passenger side door and instructed individual to get out of the motor home while the suspect was attempting to hide. The individual was again instructed to leave the vehicle and at that time the suspect came to the back door and was advised to turn around and was placed under arrest for re-entry into the park after being evicted. The suspect was handcuffed and read his rights and was informed that he would be released after he was charged. A search of the vehicle revealed a can of snuff. Suspect was issued a SOT and released.

23. The officers received a complaint from park staff and the general public regarding wreckless driving. Park staff took the officers to a vehicle where the impaired individual had just exited The officers determined that the suspect was a disqualified driver with an extensive criminal record. The suspect resisted arrest and is pepper sprayed and handcuffed. He had serious stab wounds to the neck and arm from an unrelated incident the previous night and was escorted to the patrol vehicle and taken to hospital and turned over to the RCMP where he was photographed, charged and released.

24. A lone officer was traveling a highway when eight vehicles were observed stopped near a winter access road. The occupants of the vehicles were transporting large amounts of alcohol to the lakeshore area. The RCMP were radioed and advised of the occurrence at which time the officer was requested to assist them upon their arrival. On the scene an RCMP constable was running to the lakeshore and the officer observed a boat with the suspects in it. As the officers approached the boat it was attempting to leave the area. The suspects were ordered to stop the boat. As officers approached the operator of the boat the officer observed several passengers had open liquor in the boat and the floor was filled with a large amount of full boxes of beer. The driver was ordered to stop and the officer disengaged the motor himself. At that time a passenger in the front of the boat turned in the officers direction and swung a broken paddle at him. The suspect was placed under arrest.

25. While on routine patrol two officers noticed a vehicle with two individuals traveling the wrong way on a one way street up a hill. The vehicle was stopped and the suspect told to turn around. The vehicle was unregistered. At this time two RCMP officers were spotted and informed of the situation. The officers stopped the vehicle and upon doing so a

female suspect kept searching in her pocket and informed the officers she wasn't driving the vehicle. She then tried to reenter the vehicle to continue her search. She was given verbal direction twice to stand in front of the vehicle at which time she complied. Suspect was informed she was being detained and was then handcuffed. RCMP arrived on the scene and the suspect served her an SOT, driving without license and driving an unregistered vehicle.

26. Two officers were patrolling a game preserve corridor and stopped the suspect vehicle. While speaking to the occupants they noticed a strong indication of alcohol coming from the vehicle. The occupants were ordered to step out. Upon searching the vehicle the officers discovered open liquor in the car and also noticed the licence plate had expired. The occupants repeatedly failed to follow directions while they searched the vehicle and were obstructive and showed signs of intoxication as well as providing false information to the officers. When informed that they were both under arrest one of the suspects started running down the road with one officer in pursuit but abandoned the chase to assist the other officer with the arrest of the other individual who was handcuffed without incident. The individual who fled was arrested two days later by the officers without incident and taken to the local RCMP detachment for processing where it was discovered that the driver had two outstanding warrants of arrest and was also disqualified from operating a motor vehicle.

27. On a routine patrol in the northern part of the province two officers encountered four vehicles parked on the road, three southbound and one northbound. Apparently the three vehicles were checking on the northbound vehicle to see if the occupant was okay. Apparently they awakened an intoxicated individual. Search of the vehicle revealed open alcohol. Suspect was charged and further checks revealed a violence warning and outstanding warrants. Suspect was placed under arrest and handcuffed for safety and transported to the local RCMP detachment.

28. Two officers were patrolling the area in response to recent complaints of illegal hunting in the area operating the patrol vehicle in a lights out capacity at slow speed when they observed vehicle headlights to the north coming towards them. The patrol vehicle stopped and waited for suspect vehicle to approach them. They initiated patrol vehicle lights and overhead emergency lights when suspect vehicle was approximately 50 to 75 yards away. Observed suspect vehicle had slowed to an almost complete stop which revealed several occupants in the vehicle. The suspect vehicle accelerated at a high rate of speed and the officers record the licence plate. The patrol vehicle was turned around for pursuit at which time the suspect vehicle turned onto a grid road and accelerated. The patrol vehicle pursued the suspects at speeds in excess of 130 km/hr and were unable to close distance between suspect vehicle. They abandoned pursuit as they were unable to determine which direction the suspect vehicle had taken. The officers traveling north of the same area ran the suspect vehicle licence plate whose registered owners were well known to the local officers. Officers requested assistance with search for suspect vehicle. The original officers turned off at the highway to watch for suspect vehicles returning to the area but the suspect vehicle was not located by any of the officers and the search was ended.

29. During an aircraft assisted night patrol two officers were situated near a reserve where they observed a light being flashed on the reserve for nearly an hour. At 2340 direct visual contact was made with a vehicle proceeding on a trail inside the reserve boundary fence. It was established that an occupant of the vehicle was working the spotlight shining it onto private land adjacent to the reserve. The officers repositioned their patrol vehicle to intercept the suspect vehicle and the officers moved in behind the suspects with lights activated. The suspect vehicle immediately sped away. The officer realized the suspects were on the reserve side of the fence and pursued them approximately two km into the reserve.

Code 5 takedown was done with three suspects cooperating. One officer employed the shotgun from the drivers side and shouted instructions while the other officer handcuffed the suspects with their cooperation while one of the officers was covering the suspects with the shotgun and the other searched the vehicle for more suspects and weapons. The officer drew his pistol and cleared the suspect vehicle and surrounding area. With no suspects found the officer holstered his pistol. Two other officers arrived and statements and questioning of the suspects was attempted. Three of the suspects were given summons and released.

30. Two officers responded to a complaint that occupants at a campsite were loud. The officers gave a warning, turned the music off and left. Later that evening an officer responded to another complaint at the same campsite. Upon arrival two of the suspects ran into the bushes. The third suspect stayed and was verbally abusive. The other two suspects appeared from the bushes and all were told that if they went to bed now that they would not be evicted. They responded with more verbal abuse. The officer left, called the RCMP and had them accompany him back to the campground. No one seemed to be around so the officers searched the bushes. One suspect was found and arrested by the RCMP for breach of the peace and put into the RCMP vehicle. The other suspect came out of the trailer, quite intoxicated and was verbally abusive. The RCMP handcuffed the suspect and placed the suspect into the RCMP vehicle. The search continued for the third suspect but was never found. One suspect complained of being diabetic and needing medicine. The RCMP officer opened the door and the suspect became violent. The officer used OC spray on the suspect which did not help. The suspects were put in separate vehicles. Both individuals were booked into cells by the RCMP. Other occupants at the site were evicted.
